Dept. of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, 2005 OCLC Number: (OCOLOC)313985950 Subject: Fishery management -- United States. Excerpt: . . . of an ecosystem approach can be worked on at whatever level of effort is chosen. This is preferred to forgoing any attempt at an ecosystem approach because a full multi-sector approach is unattainable. Specific examples of how NOAA has been contributing to the development of ecosystem management practices at all three levels simultaneously can be found in Section 1. 2. Figure 1. Single sector EAM continuum, ( adapted from Link, 2002 ). Internationally, the precautionary principle has been interpreted to mean that insufficient data, models or governance structures to attain the full regional ecosystem level of management should not be used as an excuse to ignore some of the issues at the second level that sorely need to be addressed. In the U. S. , this has generally not been a problem, as the MSFCMA and other statutes require that management proceed based on the best available science. An EAM is also a collaborative process since the governance authorities for ecosystem management are distributed across many levels of government, and successful management requires participation of many different stakeholder groups in the public and private sectors. Unlike Canada, whose Oceans Act of 1997 provides its Minister of Fisheries and Oceans with...
