paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 164 Publisher: China Renmin University Press Pub. Date :2007-3-31. Book is based on the professional science and engineering vocational colleges probability theory and mathematical statistics written in the course syllabus. which covers the theory of probability The basic concept. and multi-dimensional random variable and its distribution. the number of characteristics of random variables. basic knowledge of mathematical statistics. parameter estimation. hypothesis testing. analysis of variance and regression analysis and so on. The book into the culture of mathematics history and mathematics knowledge. and appropriate selection of step by step gradient of difficulty of teaching examples and exercises. Same time with the content of the book teaching mathematics in particular to provide the corresponding experiment (see Appendix). In addition. we combine modern teaching of the new requirements and new developments in information technology. has developed a rich. powerful learning software - Probability and Mathematical Statistics multimedia learning system (CD-ROM with the book). including multimedia lesson plans. exercises Detailed experimental teaching. training and other functions integrated modules designed after-school students will review. troubleshooting. self-improvement and innovation ability to play an active role. In the learning process. the book used in conjunction with the plate. forming a combination of teaching and learning. This book can be used as a professional science and engineering vocational college mathematics based curriculum materials. Contents: Chapter 1. the probability of random events and random events 1.2 1.1 probability of random events conditional probability 1.4 1.3 Chapter 2 of the independence of events and distribution of random variables 2.1 Random Variables 2.2 Discrete random variables and their probability distribution of random variables 2.3 distribution function 2.4 continuous random variable and its probability density function of random...
